

Guest Lecture: "How to Become a Successful Pharmacy Professional"

On 12th December, Dr. KNMIPER organized a guest lecture on the topic "How to Become a Successful Pharmacy Professional", delivered by Mr. Amulya Jindal, an ICMR Project Scientist and PhD Research Scholar at NIPER Hyderabad.

During the session, Mr. Jindal shared his professional journey and provided practical guidance for aspiring pharmacy professionals. He emphasized the importance of combining strong academic foundations with hands-on experience and encouraged students to explore opportunities in research, clinical trials, regulatory affairs, and pharmaceutical innovation. He highlighted the value of internships, networking, and continuous learning to stay updated with industry trends. The lecture was highly interactive, with students actively participating and seeking clarity on career pathways. Mr. Jindal's insights and advice motivated the students to work towards building a successful career in the pharmaceutical field.
